The presented transit time is divided into groupage and FTL service provided by Raben East Sp. z o. o.

- Transit time is specified in business days, counting from the day of collection (day 0) of the goods in Poland (for exports) to the day the international truck arrives at the customs point in the destination country.

It includes the time necessary for consolidation and export customs clearance (assuming the exporter is prepared for it)

- Transit time does not account for unforeseen queues at the borders or other delays caused by circumstances beyond the carrier's control.
